

Rigor Rubric

Draft/revised January 29, 2002

- **4-** I had to think hard and felt challenged for an extended period of time. I was motivated and able to stick with working on the problem. I enjoyed the experience. It was extremely satisfying to work on and/or complete the task.

- **3-** I had to do advanced thinking. I was interested in the task and motivated to complete it. I felt good about the outcome.

- **2-** I had to do some thinking. I think it was somewhat easy for me. I would prefer a greater challenge.

- **1-** I had to do very little thinking. I was bored doing the task, felt little motivation and little satisfaction in completing the task.
